   Hello Safet,
        The case 10/078,605 deals with business usage determination, it should be under
class 705/35. The case 10/079,005 is 707/9 data privileged access.

I there a primary that you can suggest I can talk to about this two cases (10078605 and
10079005) because I believe they are in class 707.

Case:10078605

is database, and discusses fields of the entry in the independent claim
and discuss mapping of entries and other features

Case:10079005
discusses database and query of the database and database comprises tables and objects

Importance: High

Ajay,
I see nothing in the claims that would bring this case into 705/35.

A primary suggested this case (10078605) should be in 705/35. Is there a primary that you suggest that I speak to. It discusses a eCommerce transaction log stem for B2B commerce.

Thanks
